Let go or die. That's the alternative of the shipwrecked man with the money bags. A great many people have a like alternative before them. Business men come to a point where the doctor tells them that they must "let go or die." Probably he advised a sea voyage or mountain air. There's an obstinate cough that won't be shaken off. The lungs are weak and perhaps bleeding. There is emaciation and other symptoms of disease, which if unskilfully or improperly treated terminate in consumption.

Thousands of men and women in a like condition have found complete healing by the use of Dr. Pierce's Golden Medical Discovery.

"It gives me pleasure to send you this testimonial so that some other poor sufferer may be saved, as I was, by Dr. Pierce's Golden Medical Discovery," writes Geo. A. Thompson, of Sheldon Ave., Chatham, Ont., Canada. "I had a cough for years, expectorated a great deal, and was slowly failing. Was losing flesh every day. Lost in weight from 150 pounds down to 128. My flesh got soft and I had no strength. Did not say anything to any one but made up my mind that the end was not far off. One day my wife was reading in the 'Common Sense Medical Adviser' about Dr. Pierce's Golden Medical Discovery, and I said, *that* sounds more like common sense than anything else that I had heard. I at once bought a bottle of your famous remedy and before I had taken half of one bottle I felt better. Took thirteen bottles and it made a new man of me. I gained sixteen pounds and never have had a cough since. I feel splendid and give all the credit to your medicine."

Given away. The People's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing *only*. The book contains 1008 pages, over 700 illustrations and several colored plates. Send 21 one-cent stamps for the paper-bound book, or 31 stamps for the cloth bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

Pierce's Pleasant Pellets cure bad, foul stomach and constipation and so *help* to cure nearly every disease of mankind. They regulate, tone up and invigorate Stomach, Liver and Bowels.

GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Manuell, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '99, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 20 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

SATURDAY EVENING. DEC. 9, 1905.

The Death of Sen ator Mitchell

As was stated in the Gazette, United States Senator John H. Mitchell died at the Good Samaritan Hospital, in Portland, Oregon, yesterday, death resulting from complications which followed the removal of four teeth at a dental office Thursday morning. Hemorrhage of unusual severity followed the removal of the teeth, and, despite the application of the most powerful styptics known to dental science, the flow of blood could not be stayed. Physicians were summoned to the dental office, but the combined scientific knowledge of the dentists and physicians could not stop the flow of blood. The Senator's condition soon became alarming and it was determined to remove him to the hospital. When the Senator reached the hospital he was in a very weakened condition and it became apparent that unless the flow of blood was soon stopped he would die. Senator Mitchell had long been a sufferer from diabetes and other vitiating diseases, and in his weakened physical condition rapidly succumbed to the inevitable weakness following such violent hemorrhages, and lapsed into a state of semi-consciousness early in the evening.

Four physicians, worked over the Senator, and about 7 o'clock Thursday night temporarily stopped the hemorrhage, but the relief was of short duration, and again the blood began to flow intermittently, continuing during the evening and through the night. At an early hour yesterday morning a severe vomiting spell further weakened the Senator and it became more and more apparent that the end was approaching. All during the night saline solution was injected into the veins to furnish more fluid for the circumlatory system and to stimulate the sluggish circulation.

The diabetic coma into which the Senator lapsed grew more and more pronounced, despite the frequent use of powerful stimulants, and only occasional evidences of a certain degree of mental activity rewarded the untiring efforts of the physicians and nurses in attendance. Several hours before death the injection of saline solution was discontinued and more powerful heart stimulants resorted to, but with no effect on the rapidly sinking man.

After daylight the Senator's condition grew worse, and pronounced indications of mortification became evident, especially in the ankles, knees and hips. Several hours before death the action of the heart at times became almost imperceptible, and the breath came in short, spasmodic gasps. As the end approached these symptoms became more and more pronounced, death ensuing at 11:40 o'clock.

Senator Mitchell did not at any time realize the seriousness of his condition. When he visited the dental office Thursday he was in a weakened condition, owing to the disease which affected him, and his request that an anesthetic be administered was declined, the dentist persuading him that such a course might prove harmful. The first three teeth were extracted with little or no trouble, the flow of blood being normal. The extracting of the fourth tooth was a difficult task, and it was following the removal of this that the violent hemorrhage manifested itself.

Miss Croker to Marry.

Richard Croker, ex-boss of Tammany Hall, New York, is to have another titled son-in-law, according to a report cabled from London. The message says that Count Joseph Massino San Maritno, elder brother of Count San Martino, who recently eloped with Florence Croker, is betrothed to Ethel, the second daughter of the former Tammany leader. Ethel Croker's dowry from her father is said to be $2,000,000. That was the sum which, it was reported on good authority, was given by the former head of Tammany to his daughter Florence when she and the Count visited him in Ireland following her runaway marriage. It is also said that he will build for Florence and her husband a manor house in Ireland, near his own estate. Each of the Croker girls received a large sum from the estate of their unfortunate brother, who, was killed in an auto accident in Florida. Countess Florence, it is said, has become quite a Parisienne in appearance. With her husband and her father-in-law, the old Count San Martino, who is a real Beau Brummel, and his countess, who is still pretty, the former Miss Croker makes one of a very picturesque group in the fashionable Paris hotel in the Rue Castiglione, where she is stopping. Miss Ethel, it is said, met her finance when visiting her sister in Paris. No date for the wedding has been fixed.

Suicide of a Carpenter.

Lee Rivenbark, a carpenter, thirty years of age, committed suicide in Wilmington, N. C., yesterday morning by cutting his throat from ear to ear with a razor. He was engaged to be married to Miss Minnie Walker Sunday night, December 10, and the young woman is almost crazed with grief. Rivenbark was employed at the car shops of the Atlantic Coast Line. It had been thought for some time past that his mind was affected. He had an idea that several negroes in Wilmington wanted to murder him. He did not go home Thursday night, but stayed with a friend, being afraid, he said, to return to his home. At breakfast early yesterday morning he said he felt as if he was going to die. After eating his meal he went back to the bedroom. At noon his friends broke open the door and the young man was found with his head lying in the fireplace, his throat cut from ear to ear. In his right hand was the razor. He had apparently been dead for several hours. No note was left saying why he killed himself.

He selected only the better grades of goods, hence the collection is particularly choice. Many of the toys were made to our special order and cannot be found elsewere.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

SATURDAY EVENING, DEC. 9, 1905

THE EXECUTION yesterday of Mrs. Mary Rogers at Windsor, Vermont, for the murder of her husband, attracted considerable interest throughout the entire country. The penalty of the law was carried out against the protests of thousands, the great mass of whom never saw the unfortunate woman, but the fact that she was a member of the gentler sex brought forth expressions of sympathy in every quarter. The fact, however, remains that her crime was premeditated and brutal and was conceived for the purpose of securing $600 insurance on her husband's life, and that she migh marry another man. The law makes no difference between the sexes, and many believe that this is proper. Some women when on the down road to destruction plunge headlong from vice to crime, and many examples could be culled from history to show what some specimens of the feminine gender are capable of doing. Occasionally an example has to be made in order to deter others who would commit murder were it not for dread of the consequences. Jezebel many centuries ago imbubed her hands in blood and received the just recompense of her deed, and later Herodias gazed at and gloated over the head of a man pronounced the greatest that had been born of women because he had denounced her adultery. During the Christian era numbers of women have appeared in all countries equally as bloodthirsty. While they may not at all times have wielded the dagger or prepared deadly potions, they were the originators of diabolical acts and directed those who committed them. The details in connection with the crime for which Mrs. Rogers (young and at the threshold of womanhood) paid the death penalty are revolting. There never was a more deliberate murder, and her victim was her husband, whom she had promised before God and man to love, honor and obey. Her lewd life led her from one oveet act to another until she determined to kill her own consort to obtain the small sum for which his life was insured, in order to spend the same with another man. It was a sad judicial act to prepare her for the gallows from the fact that she was a woman. But had man, the representative of the deity, refused to carry out a commandment not human but Divine, he would have been recreant to his Creator. In antediluvian times we are told that violence filled the earth, and murder was doubtless common. When the waters of the flood subsided the then representative of the entire race was commanded to take the blood of those who shed man's blood. How, therefore, could Governor Bell or anyone else in authority in Vermont stand as a buffer against the fiat of both God and man?

SENATOR MITCHELL has been called to his last account. The grave is his refuge from further human judgment; and of the dead it is becoming to speak well or keep silent. He lived in a vitiated official atmosphere and was not strong enough to resist the mephitical vapors of the era of graft. The pity of it that one who had been raised so high could not maintain himself at the altitude to which he was lifted. The abuse of official influence for private gain has been so long regarded as a mere peccadillo that many ordinarily good men fall into the vicious habit of making their positions pay them something beyond their legitimate official rewards. In this connection the Philadelphia Record says: "The fact that high place no longer assures immunity to offenders of this class is the most eloquent of the revival of civism in this country."

THE New York city local unions of housesmiths and bridgemen appealed to President Ryan, of the International Association of Bridge and Structural Iron Workers, last week, to declare a national strike on all contracts affecting the New York Builders' Association. The strike at New York was due to the efforts of Post McCord to force an open-shop plan on three of the thirty buildings they are erecting, and strike-breakers were put to work on these buildings. It is feared that the new year will be ushered in with many strikes throughout the country and that violence and much suffering will follow.

THE annual report of Secretary of War Taft was made public yesterday. After reviewing the institution of the new Panama Canal Commission and the events leading up to the resignation of Chief Engineer Wallace, Mr Taft says:

By the 1st of December we shall have spent $60,000,000 in the cause of acquiring a trans-Isthmian canal. The two questions which suggest themselves are: 1. Have we proceeded without unnecessary delay? 2 Have we received our money's worth?

It won't take the average American citizen long to answer yes to the first question and no to the second.

SUCH talk as has been heard from republican sources of deposing Senator Gorman as the leader of the democrats of the Senate evaporated into thin air yesterday afternoon, when he was re-elected chairman of the democratic caucus of the Senate. There was absolutely no opposition to his election. The wish of the republicans that some one else would succeed Mr. Gorman was probably farther to their thought.

THE Spirit of the Valley, with its Thanksgiving number, sent out an industrial write-up, in pamphlet form, of the thriving city of Harrisonburg, which it designates "The Garden Spot of the Far-famed Valley of Virginia." The pamphlet, which is handsomely illustrated with cuts of public and private buildings, pretty scenery and pictures of prominent citizens reflects credit upon the Spirit.

THE report sent out from St. Petersburg yesterday and published throughout the world stating that Count Witte had resigned as premier of Russia and that the Czar had refused to accept the resignation, is today denied. The reports published in this country concerning Russian affairs are as unreliable now as they were during the Japanese war.

THE Manassas Journal which was burned out last Monday night, got out a very creditable edition yesterday, the day for its regular issue.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., Dec. 9.

Democrats of the House and Senate are quite determined to push Panama canal affairs to the front during this session of Congress. Resolutions have been prepared, and one has already been introduced in the House, looking to an investigation of the financial status of the venture, and although no decided step will be taken before the holidays, the debate will turn on resolutions of this character before long. It is not believed that the republicans of the House, in which the subject will probably be first brought up, will agree to the appointment of an investigating commission. It must be considered, however, that there is a good deal of dissatisfaction with canal affairs among republicans as well as democrats, and that the former will have to be mollified as much as the latter, to prevent an investigation.

A virulent case of smallpox was reported to the Health Officer today from the President's yacht Sylph, now lying at the navy yard, this city. Clarence Marlo, a negro sailor, was first stricken shortly after the return of the President's yacht to this city from an excursion which Mrs. Roosevelt took down the Potomac several weeks ago. All suspects were immediately transferred to the Navy Yard Hospital while Marlo was sent to the District detention camp. The yacht will be thoroughly fumigated before being put into commission again.

The United States Senate will not be represented at the funeral of the late Senator Mitchell, of Oregon, either in the persons of a committee of its members or by a special official of the State designated for that purpose. The announcement of this determination was made this morning after a conference between Vice President Fairbanks and Sergeant-at-Arms Ransdell in a brief statement which says that the friends of the Senator will not ask for the appointment of such committee, or the designation of such official. It is pointed out that even were a committee of Senators appointed, it could not possibly reach Oregon in time to attend the funeral. With regard to the failure to drape the Senator's desk, it is stated that it is only customary to drape the seats of deceased Senators after the formal notification of death has been made to the Senate, and then only up to the time of burial. The Senate will not meet until noon next Monday, by which time the funeral will probably have taken place. No formal notification of the death of Senator Mitchell has been made to the Senate. Whether or not the Senate will recess on Monday out of respect to the memory of the deceased, and whether formal eulogies shall be pronounced on the floor at a later date has not yet been determined. The probabilities are, nowever, that the customary enlogies will in this case be omitted.

President Roosevelt received a call today from Prof. Frank H. Roberts of the University of Colorado, who has just returned from an extended tour abroad during which he studied the municipal ownership of utilities. In general, Prof. Roberts told the President he found that public ownership does not pay and is bound to fail in the long run "Within ten years the conservative party in England will be declaring against public ownership" said Profess or Roberts. "The principal reason that the municipal ownership schemes that have been thus far tried seems to show on their face a gain or a profit, is that they are not run on a business basis. Legitimate expenses are not paid and they are credited with unreal profits. Thinking politicians in Englandadmit that municipal ownership has not paid and is bound to be cast aside in a short time."

Senator Foster, accompanied by members of the Louisiana congressional delegation, called on the President this morning to make inquiries regarding the sentence by the court martial upon Midshipman Meriweather. The President informed his caller that he has not yet received the report of the court martial and knew no more about its findings than they do. The Louisiana delegation is of the opinion that no punishment should be imposed and served notice on the President that if any penalty was recommended by the court martial they wished to be heard in opposition.

The annual accumulation of articles in the dead letter office will be sold at auction, beginning next Monday morning. It consists of 8,162 packages, representing just that many instances of carelessness in addressing or wrapping on the part of the senders. Many of the packages contain a miscellaneous assortment of trinkets, bringing up the total number of articles to more than 10,000. Each package will be sold to the highest bidder, regardless of the amount. The sale will occupy a week or ten days.

The President today received a visit from the committee appointed by the Interstate Commerce Law Convention recently held in Chicago, which handed him a set of resolutions extrolling his stand on the railroad rate question. The committee was headed by E. P. Bacon, of Milwaukee. He talked with the President regarding the progress of the President's crusade. "We will watch the course of legislation," said Mr. Bacon, "and feel certain that all the salient points demanded by the President will be incorporated in the bill which is to become a law."

Secretary Bonaparte will next week discuss with President Roosevelt the findings in the case of Midshipman Meriwether. It is understood that the court-martial has acquitted Merriwether of the charge of manslaughter, but has found him guilty of the less serious charges and sentenced him to dismissal.

Pope Pius X. has asked Cardinal Merry del Val, his secretary of State, to procure a collection of President Roosevelt's messages and speeches and have them translated into Italian. The Pope wishes to study the President's views in connection with an important papal document concerning social problems which is to be issued.

After a trial lasting three weeks the Master Plumbers and Steamfitters Association and the Central Supply Association were at Toronto, Ont., today declared guilty of conspiring in restraint of trade, and each association was fined $25,000. Seven individual members of the Plumbers Association were also fined from $25 to $100.

The Washington & Chattanooga vestibule train southbound, narrowly escaped disaster two miles east of Bristol, Tenn., today. The pony trucks jumped from under the engine while the train was running forty miles an hour. After running two hundred yards on the ties, the train was stopped just in time to prevent its plunging from a high bridge. The train carried many through passengers bound for Florida, and for the south points.

William McWilliams, who pleaded guilty to the murder of his wife and five children a week ago, was sentenced to death yesterday at Independence, Iowa. McWilliams' crime was one of the most shocking in the criminal history of the State. He dashed out the brains of his wife and the babe in her arms with a hammer, and called his other children to him, one by one, murdering them in the same manner. The only reason which he has given is that "they were better off out of the way."

According to a pretty well authenticated report Representative Underwood, of Alabama, will get the democratic vacancy on the Committee on Ways and Means caused by the defeat of Representative Cooper, of Texas. The democrats will have two vacancies on this committee, but the republicans will claim one of them. The other democratic vacancy will be caused by the resignation of Representative Swanson, who will be sworn in as Governor of Virginia on February 1. Mr. Swanson says he expects to resign from Congress shortly.

A decision rendered by Judge Gates of Kansas City today is in effect that a silk skirt is not a necessity, and if a woman purchases one her husband is not legally bound to pay $16.50 for it.

The Culpeper Tragedy.

The suicide and murderer, John J. Vaughan, and the daughter-in-law he killed, Mrs. Philip E. Vaughan, have been buried in graves side by side at Culpeper. The unusual motive for the murder was found out yesterday in an interview with 13-year-old Daisy Vaughan, the daughter, who pleaded with her grandfather for her mother's life, and who held to her when the maddened man threw her aside and then shot her.

Daisy says Vaughan, her grandfather, had proposed to his own son's wife that she go with him away from her husband to Alexandria, where he had arranged employment for them both. If she refused, the grandfather said he would certainly kill her and himself; that he could not live without her. Daisy says her mother refused and this caused a quarrel when her mother refused to accede to his request. Daisy says that just before Vaughan killed her he drew her to him, telling her that was the last time he was going to be refused, and that if she did not then consent to go with him in a few seconds she would be a dead woman. She still refused, Vaughan at that time showed the pistol, Daisy says, and the daughter clung to her mother, begging her grandfather not to kill her. Vaughan threw her aside, but she again clung to her. He fired and her mother fell a corpse. Daisy states that he then said, "Now it will be done," and suiting the action to the word shot himself dead.

Daisy says her father was not on the lot at the time of the killing.

Killed His Family.

What will prove to be a triple murder and suicide was the discovery made at Shelbourne, Ont., yesterday by a farmer in the home of James Coulter, a well-to-do farmer about 10 miles from that place. Upon entering the house he found Coulter lying dead on the bed, while in other parts of the house were found the dead bodies of his wife and daughter, and in the barn the 11-year-old son, dying. The crime, apparently, was deliberate. The son was attacked with an axe, after which the father went into the house, shot his wife and daughter, retired to his bedroom and turned the weapon on himself. In shooting himself he set fire to the bedclothing, and the smoke of the fire was what attracted the attention of the man who discovered the tragedy.

Details of a terrible tragedy near Shelburne, Ontario, show that after James Coulter, farmer, had with an axe killed his wife, twelve year old son, and 17 year old daughter, he set fire to a bed after shooting himself.

Virginia News.

The Seibel iron mines near Fort Royal are shipping from 75 to 125 tons of ore a day to the smelter in Shenandoah, Page county.

About thirteen thousand ducklings have been hatched at the Morgan duck ranch in Richmond since the beginning of the season, October 1. The output last year was about 55,000 ducks.

Bishop Alfred M. Randolph, of the Protestant Episcopal Diocese of Southern Virginia, has been invited to deliver the Shakespeare memorial sermon this year at Stratford-on-Avon, England, the Sunday after Easter.

Although Rev. Arthur S. Lloyd was elected Bishop Coadjutor of the diocese of Southern Virginia several weeks ago, he was not officially notified of the fact till a few days since, so it cannot be said that he has unnecessarily delayed making answer to the notification.

Mrs. Estelle Townsend Smith, the Manchester woman convicted of beating her young son Ralph to death with a strap, was taken to prison by a penitentiary guard in a buggy yesterday to serve a five-year sentence for the crime, which was committed last May.

Fire yesterday morning, believed to have been of incendiary origin, destroyed the large barn on the farm of Mrs. E. M. Stribling, three miles from Berryville, Clarke county, causing a loss of $2,500, partly covered by insurance. Hay, corn, feed and farming implements were consumed.

William Burr Harrison, formerly of Leesburg, a civil engineer of the War Department, and Miss Lelia Virginia Wheeler, daughter of the late Dr. John Wheeler, of Baltimore, were married Tuesday, at noon, Rev. Robert P. Kerr, pastor of the Northminister Presbyterian Church, officiating. They will reside in Washington.

Seventeen men filed notices yesterday of their candidacy for the office of treasurer of the city of Richmond, made vacant by the death of Capt. Charles B. Phillips, who was buried yesterday afternoon. The salary attached to the office is $5,000 per year, but there are fees and emoluments which increase the compensation to $7,000 or $8,000.

The Insurance Investigation.

Mr. Thomas F. Ryan was the principal witness in New York yesterday before the committee investigating life insurance,

Asked to state what E. H. Harriman said to him on being refused participation in the purchase of the Hyde stock, witness refused to answer on the advice of his counsel. Ryan declined to answer, when asked if Harriman had threatened an investigation it not given an interest in the Equitable. Ryan's reluctance to give information on the alleged Harriman threat caused the committee to send for District Attorney Jerome, suggesting that action may be taken against Ryan. Refusal to answer before a legislative committee is a misdemeanor.

He stated that he acquired control of the Equitable Society to avert what would have been the "most tremendous panic" in the history of the country. That he had given Cleveland and the other trustees the sole right to vote his stock and name the directors to restore confidence and that he is willing to perpetuate the trust as long as he lives. That he paid $2,500,000 for Equitable stock that paid but 7 per cent., as a public service. That he is the sole owner of the 502 shares of Hyde stock, is under no obligation to any living man and will dispose of the stock to only the Equitable Society. Robert A. McCardy, jr., general manager of the Mutual Life Insurance Company, resigned.

Virginia Congressmen.

The Washington correspondent of the Richmond News-Leader says: "The statement having been made that John Sharp Williams "has it in" for Virginia members of the House and has not considered any of them for the place on the ways and means committee to be made vacant by the retirement of Governor elect Swanson, the News-Leader correspondent is in position to state that the ways and means place was offered to Representative Jones and declined by him. Mr. Williams called Representative Jones and stated that it would give him pleasure to designate the Virginian to fill Mr. Swanson's position, if he desired. Mr. Jones thanked the Missisippian, but said he was satisfied with his present committee assignments, which are ranking minority positions on the insular affairs committees and the private land claims committee. If the democrats should ever get control of the House, Mr. Jones would in all probability become chairman of both these committees. Representative Rixey has also informed Representative Williams that he is fully satisfied with his committee assignments and would not care to exchange his present places for ways and means. It is understood that Mr. Rixey was sounded to see if he would like the vacency to be made by Mr. Swanson's departure from the house. He will in a few days go to second place among the minority members of the naval affairs committee and his chances are good to go to the head of that committee with the democrats in charge of the House."

More Mutinies in Russia.

St. Petersburg, Russia, via Eydtkuhnen, December 9—The marines and sailors have mutinied and refused to obey orders to go to Kronstadt. One of the sailors voiced the resistance of his fellows and in addressing Admiral Niedermiller said: "You should be drowned in our blood. You want to herd us together so that you can repeat the Sevastopol massacre, but we refuse to obey." The sailors took refuge in their barracks which have been surrounded by troops.

A serious mutiny has occurred at Schusselburg fortress, known as the Russian Bastile, which is located on an island in the Neva river, twenty miles east of St. Petersburg. The troops there are demanding the immediate release of all political prisoners and threaten to carry the fortress by assault unless their demands are complied with. Schusselburg, for the past nineteen years, has been the tortue house of Russia for political offenders. Many of the dungeons in which the captives are confined are below the high water level of the Neva river, and the prisoners are half drowned when the tide rises. Mediaeval tortures are inflicted upon prisoners and many of them have been driven insane as the result of their sufferings in the fortress. At times sounds of awful shouting and insane laughter can be heard coming from the fortress. The food of the prisoners in the fortress consists of bread, raw cabbage and water. The government never grants permission for any one to enter the prison which conceals as many frightful secrets as did the French Bastile.

The first act of General Maximovitch, former Governor General of Warsaw, who had been appointed the successor of General Sakharoff, to crush out the peasant uprising, has been to issue the following order to the Cossacks under his command:

"Do not use the knout on malcontents, but shoot wherever you meet with the slightest opposition. Show the rebel dogs you are not economical of cartridges. The more political malcontents you kill, the higher will be the Czar's estimate of your services. Take care that your actions create a good impression on the government."

The order is bound to result in awful slaughter as the peasants have been goaded into a fury by the notice to the Cossacks. There are 40,000 armed peasants in General Maximovitch's district.

Bungling Execution.

Windsor, Vt., Dec. 9.—The news that the hanging of Mary Rogers Friday for the murder of her husband, Marcus Rogers, has been bungled, has sent a thrill of horror through the State. It is learned from an eye witness that the rope with which the wretched woman was hanged had not been tested. When the drop came the weight of the body stretched the manila strands so that the woman's feet were on the floor. In this emergency stalwart deputy sheriffs seized the rope, lifted the body clear of the floor and held on for nearly 14 minutes while the woman slowly strangled to death. The prison officials made efforts to prevent the bungle from becoming known.

An eye witness says: "When the body shot down after the trap had been sprung the feet of the woman struck the chamber floor, and as the body swung, the feet dragged on the floor. It was awful to see. Several deputy sheriffs on the scaffold leaped forward and seized the rope, and dragged the woman clear of the floor and there they held her, taking turns relieving each other, for fourteen long minutes, until the woman's life was strangled out of her."

Another witness says: "The trap was sprung at 1:14 o'clock with a crash that could be heard a hundred yards away. The body shot down like a plummet, and snapped back when the rope became taut. The woman trembled convulsively and her feet dragged on the floor. The rope had stretched. To save the woman from an even slower and more awful death, the deputies on the scaffold floor seized the rope and pulled the woman from the floor and held her in that position until she strangled to death."

Launch of Battleship Idaho.

Philadelphia, Dec. 9.—Named by probably the youngest sponsor ever selected to christen a ship of war, the battleship Idaho was launched at Cramps' shipyard at 12:17 p. m. Miss Louise May Gooding, the 13 year old daughter of Frank H. Gooding, of Idaho, had the honor of breaking the bottle of wine against the vessel prow.

In addition to Governor Gooding, Idaho was well represented by a delegation of her citizens. Men of prominence in all walks of life were gathered on the platform. Society, too, was out in force. Mayor Weaver was there to represent the city, while quite a few of the municipal department officials were also present. The Idaho is a sister ship of the Mississippi. She is of 13,000 tons displacement, is built on the lines of the Oregon and will have a speed of 17 knots and a battery which will make a fair match for any battleship afloat.

Mr. Morgan's Rival.

Berlin, Dec. 9.—Well informed shipping and financial circles expect that the negotiations which are in progress between the Hamburg-American and North German Lloyd steamship lines will terminate in the complete fusion of both companies into the world's biggest combination. Herr Ballin, Director-General of the Hamburg-American line, is triving to coerce the weaker North German Lloyd line to his fusion policy. The North German Lloyd intends to resist, but its ultimate surrender is considered certain. Herr Ballin is now being described as the J. Pierpont Morgan of Germany, but he is a more thorough soldier than the speculative American. If the fusion occurs, and the united companies continue as members of the Atlantic shipping trust, it is expected that the control of the trust's operations will be transferred from Mr. Morgan to Herr Ballin.

The State Vote.

[Special Dispatch to the Alexandria Gazette.]

Richmond, Va., Dec. 9.—By courtesy, Warrock and Richardson's almanac figures for governor in the last election can be given for the first time today. They are: Total vote 139,792. Swanson, 83,544; Lewis, 45,795; Downey, 453. Swanson's majority over Lewis is 37,749. This is official, as information was gotten from the various court clerks and carefully compiled. The returns will not be officially counted until the legislature meets.

Bold Act of Robbers

Reading' Mass., Dec. 9.—Between two and three o'clock this morning a gang of eight men participated in one of the boldest hold-ups ever recorded in New England. They appeared on the main street of the town, and encountering Patrolman Manning, took his revolver and handcuffs from him and placing the latter on the officer they marched him to the police station, where they locked him up, leaving a small guard at the station. The balance of the gang then held up Patrolman Orr, whom they treated in the way they had Manning. Going then to the Masonic building, which is opposite the police station, they smashed open the door of the waterworks office and with nitro glycerine they blew off the door of the safe, from which they took a small amount of money belonging to the waterworks company, and $200 belonging to L. M. Bancroft, treasurer of the company. The noise of the explosion aroused Mr. Brooks, who lives opposite the Masonic building, and he looked out of his window in time to see the men headed toward Boston. He fired one shot from his revolver without effect. The Chief of Police was soon aroused and released the two patrolmen. There is no clue to identity of the members of the gang.

Antelopes Invade Ranch.

Lewistown, Mont, Dec. 8.—A herd of at least six hundred antelopes driven from the mountains by snow visited the Seventy-nine Ranch in a body. This is the largest herd seen in Montana since pioneer days. The animals were so thick that men rode through them as they would through a bunch of cattle. The snow was crusted and this had cut the legs of the antelopes so badly that they showed not the slightest disposition to move on. The State game warden estimates that the lives of ten thousand deer and elk have been saved through the absence of snow until the open season closed on December 1st, since which time antelopes may not be killed.

Mad Cow Filled the Trees.

Freehold, N. J., Dec. 9.—A mild-eyed cow that had walked peacefully on its way to the slaughter from the farm of Frank Wickatunk, six miles from here, yesterday took a mad fit and chased her driver up a tree. Villagers, including some nice girls, went to the man's rescue, but the cow was full of fight and they were glad to take to other trees and jump fences without regard for decorum. Two shots were fired at the beast and she fell. The people thought it was all day with her, but she arose and charged with fresh vigor. A third shot settled the cow and the trees were emptied.

Whole City To Chase Wolves.

Kansas City, Dec. 9.—A mass meeting will be held today in Oak Grove, a suburb of Kansas City, to organize a wolf drive. Wolves have become as numerous since the bounty was taken off that systematic effort is necessary to get rid of the pests. When the bounty of $3 a head was paid the wolves were destroyed while young. Since then they have been allowed to increase without restraint. Many wolves have been killed recently, but they are so numerous that a general round up is advisable.

Killed by a Train.

Huntington, W. Va., Dec. 9.—In stepping from a Norfolk & Western passenger train at Kenova, during the darkness of the night, Frank C. Sowards of Newport News, Va., was killed, and H. W. Wods of Trout Valley, W. Va., probably fatally injured. They stepped over a viaduct falling fifty feet. Sowards fell directly in front of a Chesapeake & Ohio train passing below and was hurled sixty feet.

Presidency of the Mutual.

New York, Dec. 8.—According to a story prevalent in the financial district today William H. Truesdale, president of the Lackawanna Railway, and chairman of the house-cleaning committee of the Mutual Life Insurance Company, may be put forward at the next meeting of the Board of Trustees as a candidate for the presidency of the Mutual.

Reception to General Kuroki.

Tokio, Dec. 9.—General Kuroki, accompanied by his staff made a triumphal entry into the city today and was welcomed with a great demonstration on the part of the people. General Kuroki was the winner of the first great Japanese victory on land during the recent war, the engagement of the Yalu River, and the reception given him was on an elaborate scale.

Sudden Death of a Sea Captain.

New York, Dec. 9.—John Larkins, 46 year old, of Baltimore, died suddenly early today in the office of Dr. J. B. Dorgin, 130 Columbia street. Mr. Larkins, who is captain of the steamship Katahdin, of the Atlantic Coast steamship company, went to the physician's office for treatment for a supposed slight illness, and expired there.

Blue Fire From Him For an Hour.

Wilkes-Barre, Pa., Dec. 9.—Rigid in death and emitting blue flames and sparks for an hour, or until the 1,200-volt current could be turned off, the body of Charles Healey, of New York, an electrocuted lineman, sat at the top of a high electric light pole here yesterday. Nearly everybody saw it and shuddered.

Hanged on Hook Through Tongue.

Lancaster, Pa., Dec 9.—The box on which Farmer Jacob Cruver stood to hang a butchered hog on a hook yesterday tilted forward, so that Cruver's chin caught on the hook. With the iron penetrating his tongue and the roof of his mouth, he groaned, utterly helpless, and hung there till his wife released him.

New York Stock Market.

New York, Dec. 9.—The stock market was practically strong, with the general price movements irregular and the usually active issues declining under persistent selling pressure. Toward the end of the second hour the entire market became weak, and nearly all the stocks traded in sustained declines of 1 to 2 points

Another Ferry Boat.

The Norfolk & Washington Steamboat Company has placed the contract for the building of a second boat for the ferry route between this city and Washington with the Harlan and Hollingsworth Corporation, of Wilmington, Del., and the formal signing of the contracts took place in the office of the company in Washington this morning. The new steamer will be 195 feet long, and in every respect will be the duplicate of the new ferry steamer Woodbury, now on the ferry route, and like her is to be a speedy boat capable of maintaining a half-hourly schedule between the two cities. The work of getting out the material for the new boat has already been commenced at the shipyard, and her keel will be laid as soon as possible. The steamer is to be ready for service not later than the 15th of next May, and will be placed on the route at once. With the second steamer in service it is the intention of the Norfolk and Washington officials to put a schedule in service calling for trips from each end of the route every half hour, and it is understood that a night service will also be established, one steamer running until quite late. It is expected that the new boat will be launched about the first of March, and may be ready for service as early as May 1, next year.

Charge Dismissed.

Howard Linkins, driver of a Washington beer wagon, was arrested by Officer Roberts yesterday on complaint of Abraham Scott, colored, who charged him with having damaged a bicycle. Linkins was released upon deposing $5 collateral for his appearance in Police Court this morning. When the case was called Scott made his statement, after which several witnesses of accident testified. It appeared that Scott was on his way down the north side of the King street and when he reached Royal street the beer wagon, going slowly south, confronted him. While endeavoring to avoid the wagon another vehicle appeared at the intersection. Scott became confused and turned into the railway track when he collided with the beer wagon, was knocked from his wheel and the latter considerably damaged. Justice Caton dismissed Linkins.

Personal.

Mr. D. J. Howell has been made secretary and treasurer of the Colonna Drydock Company, of Norfolk, just organized with a capital stock of $200,000.

Miss Mary Custis Lee has returned from abroad, and is now making a short visit to Mrs. P. T. Yeatman on north Washington street. Miss Lee spent much of the past summer in Scotland.

Mr. Elmer Beach and Mrs. Sadie Brown were married on Wednesday night last at the parsonage of the Baptist Church by Rev. Dr. Fisher.

Dr. A. B. Garnett, son of the late Dr. A. H. Garnett, of Essex, was the guest yesterday of his uncle, Mr. R. P. W. Garnett, in this city. The doctor has been living in Colorado Springs, but is to locate in Los Angeles, Cal.

New Summer Resort.

On Thursday last Mr. John Cassell, one of the directors of the Pennsylvania Railroad, with a number of officials of the electric railway made a tour of inspection of the latter road in the palace car Mount Vernon. During the trip a stop was made at Four-mile run, where an inspection was made of the surrounding country. Some time ago it was reported that a summer resort was to be fitted up at that place, and it is said that elaborate plans for the same have been prepared and that it is the purpose of the projectors to put them into execution. The hills and surrounding country are to be beautified and every modern attraction placed at the resort.

The Divine Plan.

The recent distribution of undenominational religious literature throughout this city by the Watch Tower Bible and Tract Society is to be followed up with an address by one of its able representatives at the Opera House tomorrow (Sunday) afternoon at three o'clock. The speaker, Pilgrim Clarence E. Fowler, has promised to show why God has permitted evil in the world and what is the hope for the church and for the world. The work of this society has been to stimulate the interest and increase the knowledge of christian people in the Bible. A novel feature of the meeting is the absence of any collection or charge for admission.

Police Court.

[Justice H. B. Caton presiding.]

The following cases were disposed of this morning:

Howard Linkins, arrested by Officer Roberts charged with injuring a bicycle, was dismissed.

Stephen Lenney, a shoemaker from Petersburg, arrested by Officer Roberts charged with vagrancy, was dismissed.

Charles Twyman, colored, arrested on suspicion of robbing a colored man near Spring Park about two weeks ago, and who had since been in jail, was dismissed, no additional evidence against him having been procured.

The remains of the late George H. Bayne arrived here today from Nutley, New Jersey, and were interred this afternoon.

Shot in the Mouth.

Stonewall Smith, the eight-year-old son of Conductor H. P. Smith, of the Southern Railway, was shot in the mouth this morning while playing in his yard on Commerce street and quite painfully, but not seriously injured. The stray shot, it is said, came from an adjoining lot and was accidentally fired, but by whom, no one seems to know. The little fellow was attended by Dr. Jones. Later it was learned that the shot was fired by a colored boy and the police are investigating the matter.

The Killing of Mills.

Rose Williams, colored, recently sent on to the grand jury by the Police Court on a charge of perjury in connection with the investigation of the death of Richard Mills, colored, has, while in jail, given the circumstances in connection with the killing of Mills. She says the deceased was with Sarah Gaskins at the time and that a negro known as "Sporty," animated by jealousy, shot him and then fled.

Sentenced to Penitentiary.

Edward Fitzpatrick, one of the alleged yegmen arrested in Baltimore, on December 10, 1904, shortly after the Mount Airy Bank robbery, was convicted in the Circuit Court of Prince William county yesterday for complicity in the burglary of the National Bank of Manassas, in November, 1904, and sentenced to eight years in the penitentiary. Witnesses from Alexandria testified at the trial.

Reinicker Lectures.

Rev. Dr. McKim, of Epiphany Church, Washington, will deliver the first course of the Reinicker lectures at the Theological Seminary, near this city, next Monday and Tuesday at 5 p. m., and on Wednesday at 12 m. The subject of the discourse will be "The consideration of the validity of the destructive criticism of the Petutaeuch."

Property Sale.

Mr. S. H. Lunt sold at auction today on the premises for John M. Johnson, attorney for Mechanics' Building Association, No. 5, a lot of ground and all appurtenances thereto pertaining, situated on the northwest corner of Queen and Pitt streets, to Mr. William Desmond for $1,900.

The Key that Unlocks the Door to Long Living.

The men of eighty-five and ninety years of age are not the rotund well fed, but thin, spare men, who live on a slender diet. Be as careful as he will, however, a man past middle age will occasionally eat too much or of some article of food not suited to his constitution, and will need a dose of Chamberlain's Stomach and Liver Tablets to cleanse and invigorate his stomach and regulate his liver and bowels. When this is done there is no reason why the average man should not live to old age. For sale by Gibson & Timberman and W. F. Creighton & Co.

NOTICE.—As Monday next, December 11, is the last day on which the STATE CAPITATION TAX can be paid to entitle voters to take part in the election next June, this office will be kept open all day Monday, December 11, and until 9 o'clock that night.

Order for Christmas Cake.

The following letter from Mr. C. W. Chandler, president of Chicago Branch Sixth Division, N. A. R. P. C., has been received by Messrs. L. Shuman & Son:

Messrs. L. Shuman & Son.

Gentlemen:—The yuletide season is rapidly approaching and in order to properly enjoy our Christmas dinner, myself and friends again desire a generous supply of your famous fruit cake.

That its excellence is thoroughly appreciated by your Chicago patrons is evidenced by the increase in our order. Our first order in 1903 was 30 pounds; in 1904 40 pounds, and this year I take pleasure in forwarding our order for 130 pounds; an increase of over 300 per cent. over that of last year.

This is wholly due to the superior qualities of your cakes, which are so delicious they would tempt even an anchorite to partake of them. That your success and patronage may continue to increase each year and for as many years as you may continue in business, is the wish of your Chicago patrons. With kindest regards, I remain, Yours sincerely,

C. W. CHANDLER.

Voices from the Sea.

Temporarily insane and believing that voices were calling her to throw herself into the sea, Miss Margaret Bristol, 18 years old, of Hamilton, Ont., attempted to jump overboard from the steamship Kroonland while in midocean last Tuesday. She is the daughter of a prominent steel manufacturer of Hamilton. Both her father and mother, who were at the dock to meet their daughter when the Kroonland reached New York yesterday, said they knew of no reason for the girl's temporary insanity. She appeared perfectly rational upon meeting her parents yesterday. Last Tuesday morning she was caught and rescued by a sailor just as she was climbing over the steamer's rail. To the sailor she exclaimed, "Let me go; voices from the sea are calling me." During the remainder of the voyage the girl was kept under surveillance, but did not again show any inclination to jump overboard. Miss Bristol had been away to school in Brussels. It was reported to her relatives in New York that the girl had been sent home from school on account of illness which affected her mind.

Negro Students Revolt.

A revolt of between 300 and 400 male and female students of Howard University, a negro institution of Washington, occurred yesterday shortly after noon. The student body had assembled in the chapel for the usual noontime religious services, when the president of the university, Prof. John Gordon, white, entered, and was greeted with a volume of hisses, catcalls, howls and groans. A scene of excitement followed. The students then marched out of the chapel to the campus, where the demonstration was continued and Professor Gordon was still further denounced. The college exercises for the day were abandoned, as the students practically are on strike. The occasion of the demonstration against Professor Gordon was said to be due to his alleged prejudicial conduct toward members of the negro race. It was further stated that a petition signed by negro bishops and ministers from different parts of the country had been presented to the board of management of the university asking for the removal of Professor Gordon as president.

Sensational Accusation.

During a disorderly session of the French Chamber of Deputies yesterday Firmin Faure, republican nationalist, made the sensational accusation that a private dispatch from Paul Cambon, the French Ambassador at London, advising the government of Great Britain's readiness to make an accord with France against Germany to safeguard their common interests, was communicated to Germany the day after it was received in Paris, although only President Loubet, the then Foreign Minister M. Delcasse and Premier Rouvier knew of its existence. The Premier characterized M. Faure's assertions as gossip, whereupon the deputy announced that it was a question of high treason. At the request of the Premier the discussion of M. Faure's interpellation went over until after the foreign budget has been considered.

Carriages For Washer Women.

Out in Winnetka Glencoe, an aristocratic North Shore suburb of Chicago, the washerwomen's trust has sent a fresh wave of horror coursing through the veins of the housewife. The members of the combine have decreed that they shall ride to and from their places of employment in their employers' carriages. The women of silks and sealskins at first offered feeble protest, but they now are vieing with each other in hauling the washerwomen in the greatest luxury. "Auntie" Dinah Zimmerman, a negress, who lives in a cabin near the railroad tracks in Winnetka, is credited with forming the combine in restraint of trade.

Shot in the Back.

W. M. Sherman, of Cushing, Me., was shot in the back, hourly, day and night, for full three months; by the shooting, tearing and racking pains of Kidney Inflammation. He writes: 'I used three bottles of Electric Bitters, and know that they have permanently cured me, for I feel like a new man. I recommend this great tonic medicine to all sufferers from kidney trouble." It's just as sure to relieve and cure malaria and all stomach and liver complaints, general debility and female weaknesses. Guaranteed by E. S. Leadbeater & Sons, druggist; price 60c.

Grip Quickly Knocked Out.

"Some weeks ago during the severe winter weather both my wife and myself contracted severe colds which speedily developed into the worst kind of la grippe with all its miserable symptoms," says Mr. J. S. Egleston of Maple Landing, Iowa. "Knees and joints aching, muscles sore, head stopped up, eyes and nose running, with alternate spells of chills and fever. We began using Chamberlain's Cough Remedy, aiding the same with a dose of Chamberlain's Stomach and Liver Tablets, and by its liberal use soon completely knocked out the grip."

It is a good plan to take a dose of the Tablets when you have a cold. They promote a healthy action of the bowels, liver and Kidneys which is always beneficial when the system is congested by a cold or attack of the grip. For sale by Gibson & Timberman and W. F. Creighton & Co.

The mission of "Early Risers" is to clear the way and give Nature full sway. These famous little pills rid the stomach and bowels of all putrid matter, thus removing the causes of headache, constipation, sallow complexion, etc. DeWitt's Little Early Risers never gripe or sicken. Give Your Stomach Rest.

Nothing will cure indigestion that doesn't digest the food, itself, and give the stomach rest. You can't expect that a weak stomach will regain its strength and get well when it is compelled to do the full work that a sound stomach should do. You wouldn't expect a sick horse to get well when it is compelled to do a full day's work every day of the week. Kodol Dyspepsia Cure is a perfect digestant and digests the food regardless of the condition of your stomach. Relieves Indigestion, Belching, Sour Stomach, and all stomach disorders. Sold by W. F. Why Buy McClure's?

McClure's Magazine is bought and read in homes not because it is a magazine, but because it is THE magazine. Why.

FIRST—THE PRICE. It costs but one dollar a year, or less than ten cents a number, for over thirteen hundred two-column pages of reading matter. This amounts in actual bulk to twenty-five books costing anywhere from a dollar to two dollars a volume.

SECOND—QUALITY.—The reading matter is written by America's leading writers—the best short story writers, the best writers on timely articles, the best writers of important serials.

THIRD—TIMELINESS. The reading matter in McClure's is about the subjects in which you and all Americans are most interested at the time.

FOURTH—ITS CHARACTER. McClure's Magazine is not edited for children, but at the same time, there is never a line in it that any young girl might not read. Its advertising pages are as clean as its editorial pages

McClure's Magazine

in your home is intended to work only for good. Send $1.00 today for one year's subscription, or leave an order at your book store. November and December free with new subscriptions for 1906.
